DETAILED ACTION

This application 03/06/2007 is a 371 of PCT/US04/21558 07/01/2004 which claims benefit of 60/484,171 07/01/2003.

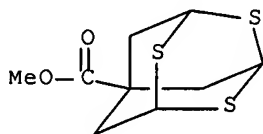

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

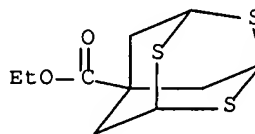

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kittredge et al. (Helvetica Chimica Acta (2002), 85(3), 788-798).

3. Kittredge et al. teach ethyl ester of 2,4,9-trithiaadamantane-7-carboxylic acid.

Compound of
Claim 1

Compound of
prior art

4. Kittredge et al. does not teach methyl ester of 2,4,9-trithiaadamantane-7-carboxylic acid.

5. It would have been obvious to someone of ordinary skill in the art to replace ethyl group with methyl group with a reasonable expectation of success because it is well

known in the art that ethyl esters and methyl esters would have the same chemical properties and use.

Allowable Subject Matter

6. Claims 2-12 are allowable.
7. The following is a statement of reasons for the indication of allowable subject matter: The instantly claimed processes (claims 2-12) of making and purifying methyl 2,4,9-trithiaadamantane-7-carboxylate are unknown in the prior art. The above-mentioned ethyl ester analog [Kittredge et al. (Helvetica Chimica Acta (2002), 85(3), 788-798)] was prepared using reagents, catalyst, reaction conditions and solvents different from those used in the processes of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
